

Statewide Contaminated Sites Cleanup**FY2017 Request: \$1,000,000****Reference No: 33826****AP/AL:** Appropriation**Project Type:** Life / Health / Safety**Category:** Health/Human Services**Location:** Statewide**House District:** Statewide (HD 1-40)**Impact House District:** Statewide (HD 1-40)**Contact:** Kristin Ryan**Estimated Project Dates:** 07/01/2016 - 06/30/2021**Contact Phone:** (907)269-7604**Brief Summary and Statement of Need:**

Contaminated sites owned by the State and contaminated sites without any known or capable responsible party ("orphan" sites) can only be addressed with State general fund resources. These contaminated sites pose a public health risk, and cannot be redeveloped without appropriate cleanup of the known contaminants. For many local communities, state-owned and "orphan" contaminated sites may present barriers to business development and economic growth.

Project Description/Justification:

This project is intended to fund the investigation and cleanup of oil and hazardous substance spills that threaten human health or the environment as provided under AS 46.08.040(2)(A). This funding will cover the anticipated cost of assessment, cleanup, and monitoring of contaminated sites for FY2017.

The estimated ongoing costs for assessment, cleanup, and monitoring in future years at orphan sites and State-owned sites is estimated based on historical costs for cleanup of contaminated sites. This request would be implemented with current staff levels and does not require new positions. Limited staff time will be charged to this capital project, as most of the funds will be used for contaminated sites contracts.

This funding reduces human and environmental risk at contaminated sites where an uncontrolled hazardous substance release threatens or pollutes drinking water supplies; health of school children; fish, wildlife, and subsistence resources; or the beneficial use and reuse of property. Contaminated sites are designated as orphan sites and become eligible for State funding following a rigorous review of the site conditions, the risk the site poses to human health and the environment, and a comprehensive investigation into potentially responsible parties that is conducted by the Department of Law.

This project contributes to the performance measures to restore contaminated sites for reuse and reduce historical contamination. This meets the Department's overall strategic framework to protect human health and the environment by conducting the cleanup, managing contaminated sites, and allowing for the redevelopment of property in Alaska.
