Brief Summary and Statement of Need:

This project provides funds for unanticipated increases in project costs and for new projects for the Alaska International Airport System (AIAS) in Anchorage and Fairbanks. This will avoid unnecessary delays in projects.

Project Description/Justification:

The operating agreement between the airlines and the AIAS allows for the airports to seek funding from the airlines for cost increases beyond what is permitted by agreement and for new projects not yet approved. These contingency funds will be used for project cost increases and new projects on an as-needed basis. Without this funding, projects and scope increases to projects receiving airline approval under the operating agreement would be significantly delayed, pending legislative approval.

This project covers the projected needs for one year of the AIAS operating agreement with air carriers.
