Project Description/Justification:

The purpose of this program is to provide gap funding to increase homeownership and/or rental units throughout the state. This program is designed to help retain desirable professionals in high-cost areas. Since 2004, AHFC provided 313 new units of teacher, health professional, and public safety housing in rural Alaska.

The projected outcomes are:

- Improving teacher retention through housing development;
- New construction of 20 units for teachers, health professionals, or public safety officials housing in rural Alaska; and

- Rehabilitating 10 units for teacher, health professionals, and public safety officials in rural Alaska.

The primary focus of this program has been to provide a source of grant funds that will help pay for the development of decent, safe, and affordable rental housing for teacher, health professionals, and public safety officials. This program has and will continue to generate additional loan volume for AHFC. Since 2004, 289 new units have been placed into service and an additional 95 units are still in the construction phase under this program.

Attracting and maintaining a pool of qualified teachers, health professionals, and public safety officials in rural Alaska is a goal of the State of Alaska. In order to achieve this, housing must be available, affordable, and of a quality that encourages these professionals to stay in rural settings. These programs were developed to respond to the need for additional housing for professionals and their families by providing grants to fill the funding gap for various housing projects. Funding is made available through a competitive process for new construction, rehabilitation, and acquisition of housing.
