

Deering Airport Snow Fence**FY2017 Request:****\$550,000****Reference No:****61016****AP/AL:** Allocation**Project Type:** Construction**Category:** Transportation**Location:** Deering**House District:** Arctic (HD 40)**Impact House District:** Arctic (HD 40)**Contact:** John Binder**Estimated Project Dates:** 07/01/2016 - 06/30/2021**Contact Phone:** (907)269-0730**Appropriation:** Airport Improvement Program**Brief Summary and Statement of Need:**

Construct a snow fence at the Deering Airport. Mechanical snow removal costs about \$3.00 for every 2.2 tons of snow. By comparison, for every foot in length of a snow fence, 4.2 tons of snow, on average, are held back. Building a snow fence is a cost-effective way to ensure that the airport remains usable and that commerce and mail service continues. The airport expects to realize significant savings in time and money by minimizing snow-clearing operations at the airport.

Prior Funding History / Additional Information:

No prior funding history

Project Description/Justification:

The snow builds up west of the intersection of the runways and exceeds Maintenance & Operations capability to clear the snow.
