**Brief Summary and Statement of Need:**

The Land and Water Conservation Fund (LWCF) is a federal 50-50 matching grant program for development or acquisition of public outdoor recreation areas and facilities. The State of Alaska typically uses half of its annual federal appropriation for state park projects, while the other half is granted to competing local governments (cities, boroughs or tribes) for public outdoor recreation projects within their jurisdictions.

Recently, the apportionment for LWCF and a related fund through the Gulf of Mexico Energy Security Act (GOMESA) have increased dramatically. The State expects roughly \$2.0 million for use in Alaska projects from LWCF & GOMESA.

 Sec1 Ch15 SLA2009 P15 L28 SB75 \$600,000

**Project Description/Justification:**

The need for public outdoor recreation facilities continues to grow with Alaska's population. LWCF provides an opportunity for local, regional, or state applicants to receive up to 50% reimbursement of eligible costs for developing or upgrading such areas or facilities.

This federal grant program was established by Congress under the LWCF Act of 1965 to provide a national legacy of high quality public outdoor recreation for current and future generations. In Alaska, LWCF-assisted projects include downhill ski areas, ADA compliant trails, neighborhood parks, rifle ranges, soccer and softball fields, skate parks, etc. Projects in urban areas (Juneau, Anchorage, and Fairbanks) as well as remote areas (Bethel, Hoonah, and Utqiagvik) have received LWCF assistance.

Fifty percent matching grants provide crucial funding that can make the difference between build/no build for important outdoor recreation opportunities. These projects benefit the people of Alaska by providing both facility development and open space. Each project provides short-term jobs in planning, construction and management during the development phase, and long-term positive economic impacts with ongoing utilization of the park site.

**Project Description/Justification:**

The need for developing and assuring access to quality public outdoor recreation areas and facilities continues to grow with Alaska's population. The Land Water Conservation Fund (LWCF) provides an opportunity for local, regional, or state applicants to receive up to 50 percent reimbursement of eligible costs for developing or upgrading outdoor recreation areas or facilities. Grant funds are also available

to the state for fulfilling the statewide comprehensive outdoor recreation planning requirements of the program.

This federal grant program administered by the National Park Service (NPS) was established by Congress under the LWCF Act of 1965 to provide a national legacy of high quality public outdoor recreation for current and future generations. In Alaska, LWCF assisted projects include downhill ski areas, ADA compliant trails, neighborhood parks, rifle ranges, soccer and softball fields, and skate parks. Projects in urban as well as remote areas (e.g., Bethel, Hoonah, Barrow) have received LWCF assistance.

Fifty percent matching grants (1 to 1 match) provide crucial funding that can make the difference between build/no build for important outdoor recreation opportunities. These projects benefit the people of Alaska by providing both facility development and open space. Each development project provides short-term jobs for planning, construction, and management during the construction phase as well as continued long-term positive economic impact from the ongoing utilization of the park site.

The outdoor recreation industry is an important component (4.2 percent) of the overall Alaskan economy, contributing \$3.2 billion in spending that supports 22,500 jobs. 81 percent of Alaskans participate in outdoor recreation activities (tied for first with Montana), with 58 percent saying opportunities for outdoor activities are a reason they live here.

The FY 22 Capital Budget Request for LWCF seeks \$3,500,000 in federal receipt authority, \$402,655 in required state match for indirect administration costs, and \$1,750,000 in required state match for state project grants, for a total request of \$2,152,655 in state funding. Typically, one half of LWCF projects grants are state projects, and the remaining half is allocated to city, municipal, borough and tribal government project grants.

With the passage this summer of the 2020 Great American Outdoors Act, which mandates funding of the LWCF state assistance program, Alaska can anticipate an annual allocation of approximately \$3.5 million of funding in the foreseeable future. Access to the project grant funds requires federal receipt authority, 1 to 1 state match for indirect administration costs that includes a state LWCF grant administrator and current statewide comprehensive outdoors recreation plan (SCORP), as well as 1 to 1 match for state project grants. Other local government applicants have to provide for the 1 to 1 match funds for project grants.

Sample of recent Alaska based LWCF Project Grants for State and Local Governments, with LWCF federal match indicated.

Grantee	Project Name	Federal Share \$	Grant Scope
Ketchikan Gateway Borough	Dudley Tennis Courts: Rehab	52,250	Resurface tennis courts and pedestrian walkway with asphalt. Improve existing perimeter drainage.

**Brief Summary and Statement of Need:**

The Land and Water Conservation Funds (LWCF) is a 50-50 matching grant program that provides funding for development of public outdoor recreation areas and facilities. The matching funds are provided by the communities and this assistance often sets the course for a building scenario for important outdoor recreation opportunities. Traditionally, the State of Alaska uses half of its annual federal grant amount for state park projects, while the other half is granted out to local governments (cities, boroughs or tribes) to provide public outdoor recreation opportunities within their municipality.

**Project Description/Justification:**

The need for public outdoor recreation facilities continues to grow with Alaska's population. LWCF provides an opportunity for local, regional, or state applicants to receive up to 50% reimbursement of eligible costs for developing or upgrading such areas or facilities.

This federal grant program was established by Congress under the LWCF Act of 1965 to provide a national legacy of high quality public outdoor recreation for current and future generations. In Alaska,

LWCF-assisted projects include downhill ski areas, ADA compliant trails, neighborhood parks, rifle ranges, soccer and softball fields, and skate parks. Projects in urban as well as remote areas (e.g., Bethel, Hoonah, Barrow) have received LWCF assistance.

Fifty percent matching grants provide crucial funding that can make the difference between build/no build for important outdoor recreation opportunities. These projects benefit the people of Alaska by providing both facility development and open space. Each development project provides short-term jobs for planning, construction and management during the construction phase as well as continued long-term positive economic impact from the ongoing utilization of the park site.

#### **Accomplishments:**

- Updated and published the Statewide Comprehensive Outdoor Recreation Plan (SCORP), which allows Alaska to remain eligible for LWCF grants through the year 2021.
- Presented SCORP information at a national conference for outdoor rec professionals.
- Conducted two competitions for grant applications for federal 2016 and 2017 apportionments.
- Coordinated with multiple entities (NPS, DOTPF, Municipality of Anchorage, contractors, Realty Services, etc.) to resolve two older conversions and process ongoing conversions and inquiries on LWCF-protected properties.
- Managed 25 grant agreements in cooperation with the National Park Service (pending and new with recent close of latest grant round) in communities as diverse as Metlakatla, Bethel, Fairbanks, Anchorage, and Ketchikan.
- Researched and addressed 30+ inquiries on potential conversions of LWCF-invested sites.
- Conducted compliance inspections and reported on more than 40 LWCF-assisted sites.
- Established "Temporary Non-Conforming Use" of two LWCF-assisted sites.

**Brief Summary and Statement of Need:**

The Land and Water Conservation Fund (LWCF) is a federal 50-50 matching grant program for development or acquisition of public outdoor recreation areas and facilities. Each project provides short-term jobs in planning, construction and management during the development phase, and long-term positive economic impacts. The State of Alaska typically uses half of its annual federal appropriation for state park projects, while the other half is granted to competing local governments (cities, boroughs or tribes) for public outdoor recreation projects within their jurisdictions. Recently, the apportionment for LWCF and a related fund through the Gulf of Mexico Energy Security Act (GOMESA) have increased dramatically.

**Project Description/Justification:**

The need for developing and assuring access to quality public outdoor recreation areas and facilities continues to grow with Alaska's population. The Land Water Conservation Fund (LWCF) provides an opportunity for local, regional, or state applicants to receive up to 50 percent reimbursement of eligible costs for developing or upgrading outdoor recreation areas or facilities. Grant funds are also available

to the state for fulfilling the statewide comprehensive outdoor recreation planning requirements of the program.

This federal grant program administered by the National Park Service (NPS) was established by Congress under the LWCF Act of 1965 to provide a national legacy of high quality public outdoor recreation for current and future generations. In Alaska, LWCF assisted projects include downhill ski areas, ADA compliant trails, neighborhood parks, rifle ranges, soccer and softball fields, and skate parks. Projects in urban as well as remote areas (e.g., Bethel, Hoonah, Barrow) have received LWCF assistance.

Fifty percent matching grants (1 to 1 match) provide crucial funding that can make the difference between build/no build for important outdoor recreation opportunities. These projects benefit the people of Alaska by providing both facility development and open space. Each development project provides short-term jobs for planning, construction, and management during the construction phase as well as continued long-term positive economic impact from the ongoing utilization of the park site.

The outdoor recreation industry is an important component (4.2 percent) of the overall Alaskan economy, contributing \$3.2 billion in spending that supports 22,500 jobs. 81 percent of Alaskans participate in outdoor recreation activities (tied for first with Montana), with 58 percent saying opportunities for outdoor activities are a reason they live here.

The FY 22 Capital Budget Request for LWCF seeks \$3,500,000 in federal receipt authority, \$402,655 in required state match for indirect administration costs, and \$1,750,000 in required state match for state project grants, for a total request of \$2,152,655 in state funding. Typically, one half of LWCF projects grants are state projects, and the remaining half is allocated to city, municipal, borough and tribal government project grants.

With the passage this summer of the 2020 Great American Outdoors Act, which mandates funding of the LWCF state assistance program, Alaska can anticipate an annual allocation of approximately \$3.5 million of funding in the foreseeable future. Access to the project grant funds requires federal receipt authority, 1 to 1 state match for indirect administration costs that includes a state LWCF grant administrator and current statewide comprehensive outdoors recreation plan (SCORP), as well as 1 to 1 match for state project grants. Other local government applicants have to provide for the 1 to 1 match funds for project grants.

Sample of recent Alaska based LWCF Project Grants for State and Local Governments, with LWCF federal match indicated.

<b>Grantee</b>	<b>Project Name</b>	<b>Federal Share \$</b>	<b>Grant Scope</b>
Ketchikan Gateway Borough	Dudley Tennis Courts: Rehab	52,250	Resurface tennis courts and pedestrian walkway with asphalt. Improve existing perimeter drainage.
City of Bethel	Pinky's Park Improvements	125,000	Develop high tunnel, boardwalk, trails, and

			multi-use field.
Metlakatla Indian Community	Cedars Trail Extension	50,000	Extend trail from new housing area to Yellow Hill.
Fairbanks North Star Borough	Tanana Lakes Rec Area, IV	91,550	Install new play equipment, ADA and accessibility upgrades, etc.
Municipality of Anchorage	Duldida Park Upgrades	133,023	Install new play equipment, ADA upgrades and accessibility, safety surfacing, walkways, landscaping, etc.
Metlakatla Indian Community	Cedars Trail, Phase 2	37,485	Add 1.5 miles of trail to existing 4 miles of trail. Connect with other trails. Use raised board walk or gravel as necessary.
Municipality of Anchorage	Jewel Lake Playground	125,000	Add new play equipment, safety surfacing, seating, ADA and diverse disability equipment.
State of Alaska: Div. of Parks	Chilkat State Campground Upgrade	60,000	Rehab campsites, campground roads, improve drainage.
State of Alaska: Div. of Parks	Izaak Walton Water Well	35,000	Replace water well in SRS in Kenai River Spec Mgmt. Area. Include signage about water safety.
State of Alaska: Div. of Parks	South Denali Trails	168,268	Develop several miles of new trails in South Denali State Park.
City & Borough of Sitka	Crescent Harbor Playground	124,998	Add new play equipment, safety surfacing, ADA and diverse disability equipment.
Ketchikan Gateway Borough	Grandstand Cover & Booth	107,100	Install grandstand cover & scorekeeper's booth at Drencey Dudley Ball Field.
State of Alaska: Div. of Parks	Denali State Park Interp Trails	148,000	Add 1,800' of new trail, create outdoor amphitheater, install interpretive signage.
State of Alaska: Div. of Parks	Matanuska Lake Campground	141,025	Convert overflow parking area into additional camping spaces.
State of Alaska: Div. of Parks	Captain Cook Shelter	22,500	Replace picnic shelter in Discovery Campground.
