

Land Sales - New Subdivision Development**FY2021 Request: \$750,000**
Reference No: 62874**AP/AL:** Appropriation**Project Type:** Renewal and Replacement**Category:** Development**Location:** Statewide**House District:** Statewide (HD 1-40)**Impact House District:** Statewide (HD 1-40)**Contact:** Raquel Solomon-Gross**Estimated Project Dates:** 07/01/2020 - 06/30/2025**Contact Phone:** (907)465-2422**Brief Summary and Statement of Need:**

This project fulfills the legislative mandate to provide land for Alaskans. This capital improvement project (CIP) would authorize DNR to propose, design, and develop new subdivisions under statutory requirements. New subdivisions require surveys, appraisals, wetlands delineations, topographical surveys, archaeological surveys, field inspections, access location, road conception, and rights-of-way brushing. If this CIP is fully funded, DNR intends to offer new parcels for sale in FY2021 and FY2022.

Funding:	FY2021	FY2022	FY2023	FY2024	FY2025	FY2026	Total

One-Time Startup:	0	0
Totals:	0	0

Prior Funding History / Additional Information:

The land sales program contributes to the development of state land, gives Alaskans throughout the State an opportunity to purchase land, puts money into the private sector through service contracts, and creates an income base for the State.

Project Description/Justification:

Making state land available for private ownership by individual Alaskans is part of the Department of Natural Resources (DNR)'s core mission. At Statehood, Alaska received a large grant of federal land. Alaska's Constitution and AS 38.04 and AS 38.05 require the state to make some of this land available for settlement purposes. DNR makes state land available for settlement by transferring land into private ownership through several programs, including auctions of pre-surveyed lands. This CIP would fund capital expenditures (primarily road and access improvements, land surveys and appraisals, and other development costs) required to develop new subdivisions.

It generally takes four to five years to develop subdivisions for sale to the public. The first year or two of the process generally does not require significant capital expenditures, as DNR is identifying the land for sale, conducting field inspections, preparing best interest findings and public notices. Once the project has gone through this public process, it then takes two or more years to develop the

subdivision (site plan with soils analysis, wetland delineations, topological survey, archaeology investigation, flood zone determination, survey/monumentation, plat approval, and appraisal).

Contractual surveys and/or geotechnical surveys are complete for the following subdivisions: Clark Bay View, Steele Hollow, Pryrite, One Thousand Skies Sunrise, Forest Knolls, Old Sterling Highway, Rolling Hills Hideaway, and Coffman Cove Loop. Access was constructed for Steele Hollow and One Thousand Skies.
