 Sec1 Ch16 SLA2013 P69 L21 SB18 \$9,500,000

Project Description/Justification:

These grants improve preparedness, response, mitigation, and recovery abilities of local and state governments, core capabilities critical to achieving the DHS National Preparedness Goal. The SHSP supports state and local efforts to prevent terrorism and other catastrophic events, requiring 80% of the funding be passed to local units of government and no less than 25% used for law enforcement terrorism prevention activities. There is no state cost-share required for SHSP. Funds are allocated based on eligible equipment or activities and based on Alaska's priorities developed through the Threat and Hazard Identification and Risk Assessment (THIRA) program. Funding is used for equipment acquisition and deployment, development of homeland security and/or emergency management plans, and training and exercises for first responders.

The PDM grant assists states, tribal governments, and local communities in implementing a sustained natural hazard mitigation program. While a portion of the funding is used to update or develop hazard

mitigation plans for the state and local jurisdictions, the remainder is nationally competed for hazard mitigation projects. Funds are allocated based on federal appropriations and priorities developed through the State of Alaska Hazard Mitigation Plan, the PDM Grant requires a 25% non-federal cost-share funded by local jurisdictions for competitive projects or through funds from state disaster declarations.

If not funded, communities across Alaska would be denied opportunity to improve their resilience posture in anticipation of or in reaction to man-made or natural disasters.
