Project Description/Justification:

NEOGOV is the market and technology leader in on-demand human resources software for the public sector. This software automates the entire hiring, onboarding, and performance evaluation process.

The State of Alaska currently uses this software for recruitment and sees the value in adding the performance and onboarding modules. The onboarding module will ensure new employees are day-one ready which will increase productivity and improve retention. The performance module will accelerate success by establishing a sense of purpose for employees by identifying and promoting their strengths. This performance management software automates annual and probationary employee evaluations, allowing HR and department heads to identify skills gaps and areas of improvement in their employees.
